Members Present:

Gavin Kremer

Eli had other commitments.

What was accomplished:

Gavin worked on fixing enter spam. Ended up being more involved than anticipated.
Made a bit of a hacked solution that was rejected by team.

Zach looked into resuming playback location when going back to a movie/show. Found that if we put a little work into using the JWPlayer API, it is much more customizable.

Clara continued her R&D on page transitions.

Kendall added three tv shows and nine episodes.
