Clara and Kendall had other commitments.

What was accomplished:

Gavin finished changing rental model to support 24 hour rental duration. Also did the same for subscription in case similar functionality becomes necessary.

Zach made our videos remember where users left off using cookies. Began working on a script that will make it easier for us to update all of our videos with the new API we're using for videos.

Clara tweaked many pages to make them more consistent with overall site theme.

Kendall made buttons for opting out of inbox and email messages work.

Eli fixed bugs with the search page and added more user test cases. Changed filters for search bar to drop down menus.

Goals for next meeting:

Need to update videos for new JWPlayer API.
